Why Yakety Yak?

Yakety Yak positively transforms working with people

YAKETY YAK desks are designed to support staff and customer connection. Their open responsive form creates a welcoming, friendly environment and ensures an exceptional customer experience.

10 smart reasons to choose Yakety Yak

1. Designed for modern libraries, education and community spaces

YAKETY YAK desks offer a fresh alternative to traditional customer service desks. As new technologies continue to transform how libraries and schools deliver their services, we offer light-on-their-feet, space-saving and stylish options that will stand the test of time.

2. Adaptability

Our products are made to respond and adapt to meet the needs of the day. Help pod, circulation desk, teaching or roaming station; there is a YAKETY YAK design to suit any space or application.

3. Customer focus

Our open designs provide a welcoming platform to interact with customers. Seated to standing height-adjustability enables staff to respond sensitively to customers of all ages and levels of mobility.

4. Height adjustability

Electric seated to standing height adjustability enables staff to customize their workspace. They can work at a safe and comfortable height while responding effectively to a variety of tasks and customer engagements.

5. Smart ergonomics

The YAKETY YAK range is designed for the 'people fit'. Organic worktop contours optimize free movement between the staff member, the customer and devices, while height adjustability fits the person to the task.

6. Mix and match

YAKETY YAK desks are designed to stand-alone or group together to create innovative solutions for your library space. Customize your desk even more with our exciting range of colors and finishes.

7. Staff well-being

Staff can adapt their work environment to meet their individual needs, reducing the risk of occupational injuries. YAKETY YAK desks bring freedom, enjoyment and a sense of well-being to the day.

8. Environmentally friendly

Our products are designed within a life-cycle framework. By considering the environmental impacts of the furniture from production to disposal, our manufacturers work hard to reduce environmental impacts.

9. Built to last

With robust construction and quality components (like the world-class LINAK actuator system), our products are built to last, making them a prudent investment.

10. Future proofing

YAKETY YAK products are designed to respond to change and evolve with your space. For example, our desks can be easily moved and repurposed as requirements change.

Yakety Yak Accessories – All Series

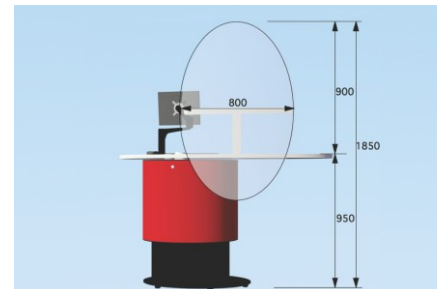

Node Power Button

NODE Power Button ensures your power supply is right at your fingertips. Desktop mounted providing 1 x power outlet and 1 x A and 1 x C USB outlets.

Lollipop Illuminated Sign Pole

Includes 'i' graphic to both diffuser faces (other graphics POA).

YAKETY YAK COVID Screen

Fit a YAKETY YAK COVID Screen to any of our range, as part of your strategy to minimize risk to staff and customers.

POP SPOT Pencil Drawer

Add a handy pencil tray for your bits and pieces.

ATDEC Economy Articulated Monitor Arm

Height adjust with articulated arm and monitor swivel. Supports displays up to 17.5lbs (8kg) — fits all pods, desks and counters.

ATDEC Premium Articulated Monitor Arm

Fully articulating arm including finger touch height adjust. Supports displays up to 19.8lbs (9kg) — fits all pods, desks and counters.

ATDEC Dual Monitor Articulated Arm

For mounting two PC monitors side by side. Supports displays up to 26.4 lbs (12kg) each arm — fits all pods, desks and counters.

Yakety Yak Accessories – 100 Series only

Lower Barrel Lighting Kit

Upgrade the lower barrel to frosted acrylic with the barrel back lighting kit.

Personalize your barrel

Choose from a selection of graphics or supply your own artwork.

Armadillo Cable Covers

Add our ARMADILLO Cable Covers to hide power cords between modules.

Upper Barrel Veneer

Upgrade the upper barrel finish to a selected timber veneer.

Retracting Castors

Three retracting castors fitted in barrel and lowered for ease of resiting the workstation — particularly useful on roaming stations for ease of re-siting.

RFID Pad Holder

A vented holder to mount an RFID sensor pad securely and discretely under the desktop.

Yakety Yak Vertical CPU Holder

Mounts CPU Box in barrel vertically — adjusts to fit.
